

ENPITEX Jute tree tie

100% natural tree anchoring

ENPITEX Jute tree tie is 100% natural and is used in tying and anchoring trees. It is an environmentally friendly alternative to rubber and nylon tree ties. Extremely strong tree anchoring, 100% natural!

- ✓ Provides a strong anchoring
 - ➔ has the same tensile strength as rubber or nylon tree ties
- ✓ After use, dispose of it as green waste or leave it on the tree
 - ➔ nature absorbs the product completely
- ✓ Remains on the tree for two growing seasons, biodegrades after 3 years
- ✓ Has a high ornamental value
- ✓ Does not cut the trunk
